

# CASSANDRA NICOLE N. ABRASIA

## Web Developer

Bacolod City, Philippines | +63 929 240 4027 | [cassey1226@gmail.com](mailto:cassey1226@gmail.com)

GitHub: [github.com/BlinkyPanoptes](https://github.com/BlinkyPanoptes) | Portfolio: [blinkypanoptes.github.io/Web-Developer-Portfolio](https://blinkypanoptes.github.io/Web-Developer-Portfolio)

## SUMMARY

Graduating Computer Science student (expected November 2026) building responsive web interfaces in HTML, CSS, JavaScript, Bootstrap and Tailwind CSS, backed by Laravel and Django when a project needs full-stack work. Comfortable translating a brief into a working interface, and works in Photoshop and Illustrator alongside code. Available for full-time, part-time and project-based work.

## TECHNICAL SKILLS

- **Front-end:** HTML, CSS, JavaScript, Bootstrap, Tailwind CSS; responsive layout
- **Back-end:** Laravel (PHP), Django (Python)
- **Databases:** MySQL, PostgreSQL
- **Design:** Adobe Photoshop, Adobe Illustrator
- **Tools:** Git and GitHub, including merging and integrating team contributions
- **Working knowledge:** React Native (Expo)

## INTERNSHIP EXPERIENCE

### Web & Mobile Developer Intern — Team Lead

May 18 – June 20, 2026

Crave Digital Advertising Supplies and Services • 300 hours

- Led a team of five interns, coordinating task assignments and overseeing project integration
- Built the mobile front-end of an Electronic Medical Records application in React Native (Expo)
- Developed back-end features in Laravel when full-stack implementation was required
- Managed version control in Git, merging team contributions into a single working codebase

## SELECTED PROJECTS

### Sibs Style Beauty Lounge | Laravel • Bootstrap • Client project

Booking and scheduling interface for a Dubai salon, built to requirements gathered directly from the owner: matches services against staff availability and prevents double-booking. The client reviewed the delivered site and returned with a follow-up brief — a more elderly-friendly interface and a higher-end visual direction. [View live demo](#)

### BalayHub | HTML • CSS • JavaScript • Team project

Mobile-friendly dormitory and rental listings platform for Bacolod City: users browse listings and view property details, amenities, locations and reviews in one place. [View live demo](#)

### NorthLink | Django • Team project

Property management web platform with modules for properties, tenants, inquiries, maintenance and billing, plus an admin dashboard. [View case study](#)

### GitPal | Python • Solo project

Terminal-based Git and GitHub assistant that explains Git errors in plain language. Open source (MIT). [View on GitHub](#)

### Developer Portfolio | HTML • CSS • JavaScript • Solo project

Personal portfolio site built from scratch and deployed on GitHub Pages. [View site](#)

## EDUCATION

### University of Saint La Salle (USLS)

2023 – Present (Expected November 2026)

Bachelor of Science in Computer Science

Dean's List — Second Honors (AY 2023–2024)

### Technological University of the Philippines – Negros, Talisay

2020 – 2022

Engineering Technology

## CAMPUS & COMMUNITY INVOLVEMENT

- Member, Computer Science Society (CSS), USLS
